NEW DUTY NORMS INTEGRATED INTO ROSTERS: AIRLINE

IndiGo says adequate pilots as DGCA relaxations end

YARUQHULLAH KHAN  
New Delhi, February 10

INDIGO ON TUESDAY said it has an adequate pool of pilots and crew to ensure stable operations as the Directorate General of Civil Aviation's (DGCA) temporary relaxations from the revised flight duty time limitation (FDTL) norms came to an end.

The statement comes after the airline faced severe operational disruptions in early December, when a combination of crew shortages, system and planning gaps and management deficiencies led to widespread cancellations and delays. Following an investigation, the aviation regulator curtailed IndiGo's winter schedule by 10% and granted limited relaxations from the revised FDTL norms until February 10 to help stabilise operations.

"As assured to the regulatory authorities earlier, we are maintaining an optimum pool of employees, including pilots, to ensure stable operations across our network," an airline spokesperson said, adding that the revised duty norms have already been integrated into crew rosters and planning.

Between December 3 and 5 alone, IndiGo cancelled 2,507 flights and delayed another 1,852, impacting over 300,000 passengers across airports in the country. The airline operates around 2,200 flights daily

TURBULENT TIMES

■ IndiGo saw major operational chaos in early Dec due to crew shortages, planning failures and management deficiencies

■ Over 2,500 flights were cancelled & nearly 1,900 delayed in just 3 days

■ Following this, DGCA cut IndiGo's winter schedule by 10%

■ It also imposed ₹22.2 cr in penalties and asked for a ₹50-cr bank guarantee

■ DGCA also temporarily relaxed flight duty time limits to prevent collapse

and saw its domestic market share decline to 59.6% in December from 63.6% in November, reflecting the scale of the disruption.

The regulator had attributed the crisis to over-optimisation of operations, inadequate regulatory preparedness on the airline's part, deficiencies in system software support and shortcomings in management structure and operational control. In addition to cutting capacity, the DGCA imposed penalties totalling ₹22.2 crore, directed the airline to furnish a ₹50-crore bank guarantee to ensure compliance with long-term corrective measures,

and issued warnings to senior management.

On January 20, the DGCA said sustained regulatory oversight and corrective steps had helped stabilise IndiGo's operations, and that the airline now had sufficient pilots to comply with the revised FDTL norms without disruption. Citing submissions from the carrier, the regulator said IndiGo had 2,400 pilots in command against a requirement of 2,280, and 2,240 first officers against a requirement of 2,050.

Data shared by the regulator also showed that IndiGo added 44 Airbus-certified pilots, including 21 captains and 23

first officers, after coming under scrutiny in December, taking its Airbus fleet strength to 2,378 captains and 2,217 first officers as of early January.

Following the December episode, DGCA also flagged deficiencies in oversight and planning, directed the removal of a senior vice-president from operational responsibilities and sought a compliance report from the airline. Warnings were issued to CEO Pieter Elbers and other senior executives.

IndiGo said it remains fully compliant with applicable duty time norms and expects operations to remain stable as the relaxations lapse.

US asked for info over Iran oil imports: Adani Ent

WEILUN SOON  
February 10

ADANI ENTERPRISES SAID the US has sought information from the company after a media report alleged it imported Iranian oil products into India, raising potential sanctions concerns.

The company initiated discussions with the Treasury Department's Office of Foreign Assets Control following the *Wall Street Journal's* article last June, according to a regulatory filing on Tuesday. Adani got the request for information on February 4 and stressed it is cooperating fully with US authorities.

Shares of Adani Enterprises, the flagship firm of Adani Group, fell as much as 3.5% on Tuesday, but trimmed losses to 1% at close.

WSJ had reported that companies controlled by billionaire Gautam Adani were being probed by US prosecutors about imports of Iranian liquefied petroleum gas through the Group's port in Mundra. Iran's oil trade has long been subject to sanctions by Washington.

The inquiry adds to ongoing scrutiny of the conglomerate, including a US bribery probe in which the group's chairman has been indicted. It follows earlier allegations of market manipulation by short-seller Hindenburg Research in 2023, which had already pressured investor confidence. Adani has denied any wrongdoing.

VIVEAT SUSAN PINTO  
Mumbai, February 10

BRITANNIA INDUSTRIES SAID its consolidated third-quarter profit rose 17% year-on-year at ₹680 crore, driven by an uptick in consumption on the back of GST-led price cuts. The number was in line with Street estimates of ₹666 crore.

Consolidated sales for the quarter stood at ₹4,970 crore, up 8.2% versus last year and in line with Street estimates of ₹4,985 crore. Hargave said on Tuesday the faster growth in profits compared with revenue reflected a return to healthier growth trends, driven by strong momentum across the biscuits business and adjacent categories.

Polaris plans ₹4,500-cr smart meter push

SAURAV ANAND  
New Delhi, February 10

BETTING ON THE surge in smart meters in the country, Polaris Smart Metering has committed close to ₹4,500 crore in capital by 2027 across manufacturing, project execution and a new battery energy storage business, while also exploring an IPO as part of its next growth phase.

The company is set to commission a new 250,000 square feet manufacturing facility—Polaris Nova—in Rajasthan by December 2026, doubling annual smart meter production capacity from 5 million units to

10 million units—positioning it as the largest single metering plant in India.

Polaris is majority-owned by US-headquartered private equity firm I Squared Capital, which holds a majority stake and has invested \$150 million in the platform to scale manufacturing, technology and large AMISP projects.

Founder and CEO Yashraj Khaitan told *FE* that the total capital committed by the company for India's smart metering programme—including facilities, digital platforms, manpower and project execution—stands around ₹4,500 crore. Currently holding around

Founder & CEO Yashraj Khaitan confirmed that the company is working towards an IPO

10% market share in the smart electricity metering space, Polaris is targeting a sharp scale-up to about 20% over the next three to five years, equivalent to roughly 50 million meters, as the national rollout under the Revamped Distribution Sector Scheme gathers pace.

Alongside metering, Polaris is entering battery energy storage manufacturing, with a planned capacity of at least 5 gigawatt-hours (GWh) to be rolled out in phases starting with 1 GWh. The company is in talks with global technology partners to structure collaborations for the storage business.

While capex numbers for

the battery segment are still being finalised, industry estimates suggest storage manufacturing at this scale could involve multi-thousand-crore investments over time.

Khaitan also confirmed that Polaris is working towards an initial public offering, as long-term utility contracts improve cash-flow visibility and infrastructure-scale assets come on stream.

On-ground challenges remain, particularly around consumer acceptance and coordination with state utilities, but early adopter states have already begun seeing tangible financial gains," he added.

Bengaluru, February 10

HAPPIEST MINDS TECHNOLOGIES on Tuesday reported a net profit of ₹40.3 crore for the third quarter, 19.56% lower than the ₹50-crore profit it posted a year ago. The drop came mainly due to a one-time charge of ₹22.03 crore from the new Labour Codes. Revenue rose by 10.69% at ₹588 crore from ₹530 crore in the same quarter last year.

On a quarterly basis, the revenue grew by 2.4% and the net profit fell by 25.4% from ₹54 crore. The earnings before interest and taxes (Ebit) was up by 11.2% at ₹85 crore compared with ₹76.5 crore q-o-q.

"We have launched AI First as our 11th strategic transformation, supported by 11 strategic programs that together define how Happi-

est Minds will build, deliver and scale value in an AI-driven world," he added.

Happiest Minds added 32 GenAI and agentic AI use cases, which they said have progressed from the pilot stage, with many scaling into complete projects.

Co-chairman & CEO Joseph Anantharaju said that as clients were increasingly focusing on embedding AI into core work flows and platforms, the demand environment remains selective but more intentional.

The above unaudited financial results have been reviewed by the Audit Committee and have been approved by the Board of Directors at the meeting held on February 10, 2026. The unaudited financial results have been prepared in accordance with the Companies (Indian Accounting Standards) Rules, 2015 (Ind AS) prescribed under Section 133 of the Companies Act, 2013 and other recognised accounting practices and policies to the extent applicable. During the quarter and nine months ended on December 31, 2025, the Company incurred a loss of Rs.589.71 Lakhs and 1,850.86 Lakhs respectively. The accumulated losses of the Company as at December 31, 2025 are Rs. 18,508.62 Lakhs resulting into erosion of Net Worth. There is no production of LED TVs from April, 2015 and of Air Conditioners since June, 2015 onwards in the absence of any orders. Despite the cessation of operations, the Company has continued to receive financial and operational support from Sharp Corporation, Japan, its majority shareholder and holding company. Sharp Corporation has provided a letter of support, reaffirming its commitment to extend such support until at least December 31, 2026. The Management has reassessed the Company's financial position and performance in accordance with the applicable accounting standards. While efforts are being made to explore alternate revenue streams, there is uncertainty regarding the time required to successfully identify and establish such streams. As a result, Management has concluded that for the purpose of accounting and financial statements, it would be prudent not to consider the company as a Going Concern Entity at present. Therefore, the financial statements have been prepared on the basis of 'not going concern' from the quarter and half year ended September 30, 2025 onwards. The Company has measured all the assets at lower of their estimated net realizable value and carrying amount, and liabilities at their settlement amounts, in accordance with the applicable Accounting Standards. Therefore, with respect to reinstatement of borrowings from related parties, there is an additional charge amounting to Rs.216.87 Lakhs to the profit and loss account for the quarter ended September 30, 2025 and nine months ended December 31, 2025. This additional charge has been disclosed under the exceptional items with corresponding increase in the current and accumulated losses. The figures for the previous periods pertaining to the quarter and nine months ended December 31, 2024 and for the financial year ended March 31, 2025 included in the accompanying statement of unaudited financial results are not comparable with those of the current period, as the financial results of these previous periods were prepared on a 'going concern' basis, whereas the financial results of current period have been prepared on a 'not going concern' basis. टीप: वर दिलेला तपशील हा सेबी (लिस्टिंग ऑटोमॅटेशन अँड डिस्कलोजर रिग्युलमंन्स) रेग्युलेशन, २०१५ च्या नियम ३३ अंतर्गत स्टॉक एक्सचेंजकडे प्रस्तुत केलेल्या तिमा
